NEUE WEGE FÜR SICH

# Walk, Talk & Experience: English Goes Outdoors!

*9 Experiential Walkshops around Heidelberg  
April - December 2015*

## Perfect for you, if you

- love nature and being outdoors
- already have a basic knowledge of English and want to improve your conversation skills
- are an English native speaker, new to Heidelberg and would like to get acquainted with its beautiful green surroundings
- are an expat and would like to meet new people with an international background

This walkshop series offers a synergistic combination of discussing interesting topics in English with Germans and expats whilst getting to know beautiful places around Heidelberg, experiencing nature and restoring your energy levels.

The guided experiential and meditative exercises will help to stimulate all your senses and further enhance this effect.

If English is your second language, the walkshops offer you a perfect opportunity to brush up your conversation skills, expand your vocabulary and also build up your language confidence.

As an English native speaker, the walkshops offer you the possibility of getting in touch with interesting people while being outdoors and enjoying nature's beauty.

The topics of the conversations revolve around the art of living well - with nature acting as a great source of inspiration for your private and professional life.
